Reconsideration is expressly requested.

Applicants wish to thank the Examiner for the courtesy of telephone interviews on December 22, 2008 and December 24, 2008, the substance of which is set forth herein. The Examiner had indicated that in his view, the claims needed to be clarified to more specifically be directed to the embodiments in which the line or the power supply chain has a first section or upper stringer suspended over a second section or lower stringer and the embodiments in which the line/power supply chain is suspended in the distribution trough. The Examiner also believed that the claims should be amended to improve their form for clarification purposes.

During the interviews, the amendments set forth herein were discussed and the Examiner indicated that these amendments would

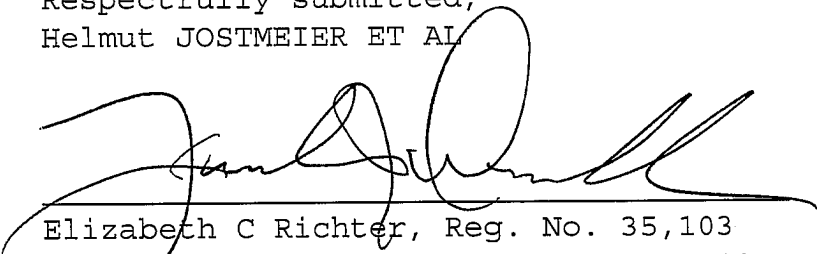

address the concerns that he had raised. Accordingly, it is respectfully submitted that claims 45-48 and the dependent claims are now in condition for allowance.

In summary, claims 3, 6-14, 20-27, 29-32, 34-42 and 45-46 have been amended, claims 2, 4-5 and 19 have been canceled, and new claims 47 and 48 have been added. The specification has also been amended, and new FIGS. 10 and 11 have been added.

The Commissioner is hereby authorized to charge Applicants' Deposit Account Number 03-2468 in the amount of \$220.00 in payment of one (1) additional independent claim over those previously paid for. In view of the foregoing, it is respectfully requested that the claims be allowed and that this application be passed to issue.

Respectfully submitted,
